

2nd International/Summer School on INDUSTRY DIGITAL EVOLUTION

Beyond Transformation: Evolving the Digital Enterprise

June 5-7, 2019

Call for Poster Guidelines, 2019

General poster guidelines

To stand out, your poster should convey your key findings and be visually appealing to grab the attention of attendees. So be clear, concise and creative. To supplement your poster, prepare handouts and be ready to answer questions and explain your research in greater detail.

Dimensions:

Poster must be vertically oriented and adhere to the standard A0 format: [download the template](#).

Content guidelines:

Top of the poster:

Include the title of your research results, the sub-title, the list of authors and contact information (website, email, social media and phone number).

Main body of the poster:

Organize the content of your poster much like the outline of a journal article but make sure the content is presented in a clear, coherent format.

Start off with a succinct introduction and a brief description of the methodology used for your research followed by a results and industrial implication section. The problem, result and conclusion for each of your key findings must be clearly defined. Keep it brief.

The use of images is also recommended.

Bottom of the poster:

Include a conclusion that either summarizes your work or informs attendees about your future research.

Deadline:

Please, send your submission to info.school@idenetwork.it by May 20th, 2019.

Each submission must include the poster pdf and a brief description (max 1 page) about its content.

The steering committee will communicate the accepted posters by May 27th, 2019.

Cost:

There is no cost for posters presentations but at least one author for poster must be register and participate to the conference.
